

Offshore fuel tanks

Offshore fuel tank specifications

For an efficient operation of our (offshore) generators we offer a range of ancillaries for rent, including efficient and environmentally-safe diesel fuel tanks. Our offshore fuel tanks rental solutions are UN compliant and in conformity with IBC environmental regulations.

They allow environmentally safe supply of fuel to Pon Energy Rental equipment where an auxiliary source is required or if the equipment's own internal tank does not allow sufficient

running time. The robust CSC plated, pressure tested containers are equipped with quick release couplings, fork lift pockets on four sides and a lockable, vandal-proof access hatch.

They ensure safe and secure containment of bulk fuel supplies for power generation and temperature control equipment.

Offshore fuel tanks

Technical information

Model		Offshore 7000	Offshore 8000
Tank size	ltr	7300	7690
Type	-	10 ft. ISO Container	10 ft. ISO Container
ADR approved	-	ADR/Kiwa and Vlarex	Yes
Fuel connection supply	-	3 x 3/4"	3/4"
Fuel connection return	-	3/4"	3/4"
Bund alarm	-	Visual	Visual
Lifting points	-	Yes DNV 2.7-1, EN12079 + certified DNV slingset	Yes DNV 2.7-1, EN12079
Forklift pockets	-	Yes	Yes
Fuel fill connection	-	2" dry break coupling tank unit	2"
Overfill protection	-	Yes	Yes
Fuel level indicator	-	Manual + digital level indicator	Yes
Max. Fuel level	%	95	95
Lockable	-	Yes	Yes
Dimensions [LxWxH]	mm	2991x2438x2591	2991x2438x2438
Weight empty	kg	4400	4400

Details are given for guidance only. Exact equipment may vary according to geographical location and availability.

The majority of our fuel tanks is equipped with fuel level monitoring.

Fuel Level Indicators and Fuel Level Monitoring give only an indication of the current content and may not be seen as accurate values.
