

LDW

Limit your liability in the event of damage or theft

We strive to offer our customers temporary tailor-made solutions by providing high quality power supply and temperature control equipment.

To limit our mutual risks as much as possible it requires adequate insurance of the equipment.

For our customers, as users of the equipment, there is the possibility to limit the risk with a Loss & Damage Waiver (LDW).

What is LDW?

A Loss and Damage Waiver is a particular type of insurance which is often offered when you are renting equipment and it is sold by a rental company.

How does LDW work?

- For a fee charged by Pon Energy Rental, Pon Energy Rental and the customer agree to waive the liability of the customer.
- The LDW covers the customer in case our equipment (all equipment including cables, tanks etc.) is damaged or stolen.
- The LDW does not cover in case of intentional damage or negligence by the customer.
- In case of damage, Pon Energy Rental's insurance will cover the damages (including damage to cables, tanks, etc.), less a deductible per insurance policy (if applicable).

Do you have an insurance?

- **YES** - If you are self-insured, a proof of sufficient insurance should be provided.
- **NO** - If you don't have insurance we can provide you with two options.
- **Option 1:** 5% of the total sum with a deductible of 12.000 K.
- **Option 2:** 10% of the total sum without a deductible.
